Summary

Software Engineer focused on frontend development, with experience building web and mobile applications in high-scale environments.

Specialized in React and TypeScript, with experience designing scalable architectures such as micro-frontends, focused on performance, maintainability, and long-term evolution.

Strong background in automated testing, code quality, REST and GraphQL APIs, Flutter, and engineering best practices.

Experience

XP Inc. — Fullstack Web & Mobile Software Engineer

Sep. 2022 — Oct. 2026 | Brasil

- Developed scalable web applications with React and TypeScript, as well as mobile applications with Flutter.
- Contributed to architectural decisions, including monolith-to-microfrontend migrations.
- Implemented CI/CD pipelines and automated unit and E2E tests.
- Responded to production incidents and helped improve application stability.

Eduardo Costa Software Solutions — Software Developer

Feb. 2021 — Jul. 2021 | Brasil

- Developed frontend applications with React and TypeScript and integrated them with REST APIs.
- Built reusable components and improved code structure, performance, and user experience.

Education

Bachelor’s Degree in Software Engineering — Estácio (2025 — 2029)

Certifications

Prompt Engineering with AI: From Zero to Advanced — Udemy (issued Sep. 2026) | Credential ID: UC-783d4a69-045e-45f0-b7d3-644e776f9edd

Artificial Intelligence: From Zero to Advanced — Udemy (issued Sep. 2026) | Credential ID: UC-77eff13e-22d0-48e3-a734-f4f44348c5af

Security Champions - Secure application — Gopliance (issued Oct. 2025)

Technical Skills

Frontend: React.js, TypeScript, JavaScript, HTML5, CSS3, Styled Components

Architecture: Micro-frontends, Clean Architecture, SOLID, Design Patterns

Testing: Jest, React Testing Library, Playwright, Cucumber, Robot Framework

Mobile & Other: Flutter, Dart, REST APIs, GraphQL, Firebase, Dynatrace
