SUMMARY

Software Engineer focused on frontend development, currently working at XP Inc., building web and mobile applications in high-scale environments.

Specialized in React and TypeScript, with experience designing scalable architectures such as micro-frontends, focusing on performance, maintainability, and long-term evolution.

Strong background in automated testing (unit, integration, and E2E), code quality, and engineering best practices.

Experience with REST and GraphQL APIs, as well as mobile development using Flutter.

Problem-solver mindset, strong ownership, and focus on delivering real technical impact.

EDUCATION

Bachelor's Degree in Software Engineering
(Estácio)

(2025-2029)
Brazil

CERTIFICATIONS

JavaScript with Test-Driven Development
Cod3r cursos

Brazil

Modern Web Development with JavaScript
Cod3r cursos

Brazil

Algorithmic Logic Module
Trybe Escola de Programação

Brazil

Web Development Frontend Module
Trybe Escola de Programação

EXPERIENCE

XP Inc.
Software Engineer

Sep 2022 – Present
Brazil

- Develop and maintain scalable web applications using React and TypeScript, as well as mobile applications with Flutter
- Contribute to architectural decisions, including micro-frontend adoption
- Design and implement automated tests (unit, integration, and E2E)
- Perform code reviews and promote engineering best practices
- Mentor and onboard new engineers, accelerating their ramp-up
- Resolve production incidents and improve system stability
- Monitor applications using Dynatrace
- Manage feature releases using feature flags (Firebase)
- Continuously improve development processes and code quality

Eduardo Costa Software Solutions
Software Developer

(2021)
Brazil

- Developed and evolved frontend applications using React and TypeScript
- Built reusable components and improved code structure for scalability
- Integrated frontend applications with REST APIs and collaborated with backend teams
- Identified and resolved bugs, improving system stability and user experience
- Analyzed performance bottlenecks and implemented optimizations
- Contributed to technical decisions and codebase evolution
- Collaborated with cross-functional teams to deliver business-driven features

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Styled Components

Architecture: Micro-frontends, Clean Architecture, SOLID, Design Patterns

Testing: Jest, React Testing Library, Playwright, Cucumber, Robot Framework

Mobile: Flutter, Dart

Others: REST APIs, GraphQL, Firebase, Dynatrace
